

2019 UNISON NEC ELECTIONS

VOTE FOR ACTION - VOTE FOR CHANGE!

FOR A LEADERSHIP THAT LEADS

We need serious national leadership for joined-up strike action against the government & employers.

ACROSS THE SECTORS

We must support members in every sector – including in the private and community sectors, fighting to win collective bargaining rights.

FOR UNITY

UNISON must take a high-profile lead, alongside other trade unions in fighting racism, as well as working with all organisations opposing racism and fascism. For an anti-austerity message of jobs, homes and services – not racism.

FOR A SOCIALIST, ANTI-AUSTERITY LABOUR PARTY

No more members' money should go to support MPs/Councillors attacking Jeremy Corbyn. We must support any councillors making a stand against cuts and call on Labour Councils to stand up against the cuts now.

FOR A GENERAL ELECTION NOW!

We should be using our influence in the TUC for a national demonstration to kick this government out.

FOR DEMOCRACY

Members and activists must have full transparent, democratic control over the union.

FOR FAIRER BRANCH FUNDING

Put the money where the work is!

DEFEND THE RIGHT TO DISSENT!

Branches and members must have the right to campaign against national policy – including opposing pay deals – free from interference of unelected union officers.
